

PODSKALÍ PROJECT

King's Kids Czech Republic mission base (YWAM)

VISION:

For many many years we have been searching for a place where we could build a King's Kids base for the Czech Republic.

We found out that there is a real estate for sale in the proximity of the city of Olomouc that is perfect for our purpose. After due consideration we would like to buy this property and move there as a family.

In order to buy this house we need several millions of Czech crowns. Therefore we would like to ask you for financial support.

The King's Kids Czech Republic base will be officially included into the worldwide YWAM bases network within the YWAM (Youth With A Mission) movement and shall serve interdenominationally for the following purposes:

- Mission and training KK camps
- Family camps and weekend activities for all generations
- Preteens strategy programs
- Base for KK (and others) mission teams from abroad
- Bible Schools and Seminars
- All year round activities for children and youth
- Missionary opportunities and facilities for foreign missionaries
- Individual service to families – healing relationships, finding and consolidating vision and God's calling
- Retreats for servants
- Recreation of families, especially the socially disadvantaged

PLAN:

Transformation of the King's Kids Czech Republic Civic Association into a Registered Institution has been successfully accomplished. New director and new administrative board of the Registered Institution have been appointed. (Registered Institution is a legal entity formerly known as a public-benefit nonprofit corporation). Legal entity of Registered Institution is the best form of organization for the future operation of the KK base in the respect of legislation, accountancy and also practically.

Current agreement with the property owners is that provided we pay a deposit of CZK 2 million, we will be entitled to sign an Option to Purchase Agreement with them and move to Podskalí as a family. After signing the Agreement the KK Czech Republic will be entitled to use Podskalí as the KK base for its activities and adapt it for its purposes.

So far we have succeeded to collect only fraction of this amount.

In the autumn 2020 at the European conference of King's Kids International we have received support and a promise that in case we buy this property it will be officially acknowledged as a KK base of the Czech Republic and incorporated into the worldwide YWAM base network.

If you wish to help us with this project in any manner, we will be very happy if you contact us.
